History

Shafa as a pharmaceutical and hygienic manufacturer since 1969. In recent years Shafa began to invest further in manufacturing of both pharmaceutical and hygienic products.

As a result of their long term commitment to product safety and quality, Shafa Pharmaceutical and Hygienic Co. have become one of the most well-known and respected companies in pharmaceutical industry in Iran. Shafa is a privately owned company and they are determined to bring the highest quality and standards to the Iranian industry. Their devotion in the past five decades in the core values of medicine production has given Shafa the foundation from which to build their future. Their vision to be the forefront in pharmaceutical technology and strategic partnership development in the Middle East is being recognized by their investment in technology, infrastructure and personnel.

Shafa has a state of art GMP facility and is aiming to be a global pharmaceutical company to attract business opportunity for multinational pharmaceutical companies to enter joint venture or contract manufacturing with Shafa.

Research and development teams are busy working on new innovations that will be added to the existing product line. The new facility which has 54,000 sqm of Production area is planned to have 5 departments, of which one is already operational and the rest are under construction.
